

Lukas/Mobility

(start at FH entrance)

Hey, welcome back!

Ready to do this?

I hope you can handle yourself over there. Don't worry, it's not as difficult as it looks like.

There should be a button near the door...

Yep, although I'm quite capable of opening a door, it can get pretty tough sometimes

You should go to that desk and ask about the basketball court.

(ignoring)

We don't have all day, you should go to the desk before they have a break

It's taller than usual, right?

I love this uni, they have elevators everywhere. Did you know that mirrors are actually put there so people in wheelchairs can be more aware of their surroundings?

(arriving at the court)

Well this sure is a nice playground!

Try scoring some points with some of those balls.

(scores)

Very nice!

(fails)

ouch, almost!

Also

Almost there!

WOO! Good job!

Well, that was fun, remember that you can go out whenever you want.

Oh, and remember that scoring points it's not the only thing you can do on a basketball court!

See what else you can do.

Try picking up some stuff around

(exit)

~~I'll go rolling now~~

I hope you gained a new perspective on sports, bye!

Teresa/Blindness

Nice to see you again!

Now, don't get too excited, it can be a bit disorienting.

Go slow and remember to use your cane.

(if stuck)

Use your cane with the tiles on the ground

Let's see if you can reach the information desk.

It should be somewhere at your right

Remember that I'm right here at your side.

Wait! It's not over there!

(reached desk)

Perfect, now let's go to the music room.

(at music room)

Your eyes may deceive you, make sure to guide yourself by the vibrations of your cane.

If you feel that something is wrong, you may be badly placed, try going around your location

(if collisions are implemented) *stumbles onto something*

Ouch! You may be more careful from now on.

Watch out!

(exit)

I hope you explored new ways of enjoying music, see you around!

Sara - Dyslexia

(start)

Hello there! Let's get in.

Oh, yes, you should check your email first.

(email read)

Mhh... you could try asking at the main desk

And remember, don't get too anxious, I'm right at your side

Now let's get to class, hurry up!

Ok, you have to solve this puzzle by identifying the question and forming a coherent answer

You can also draw something on the board.

Let's see your raw talent!

(drawing)

oh, that's pretty... abstract.

(exiting)

Well, this was a stimulating experience. Goodbye!

***Original concept by Ysabel**

Hey there! It's me Lukas! I'll be here to guide you as you experience what it's like for me to sign up for a club like basketball.

(helpful hints)

Looks like that's not going to work. How about we try that button.

(button is glowing)

These buttons are a great feature for people like me. Even though I can open doors, it's much easier for me and my mobility.

Should we try the front desk?

Hmm, it's a little tall, huh

FRONT DESK: Hallo, how can we help you?

A: I don't need any help (Are you sure you don't want any help) (It's okay to ask for help)

A: I want to sign up for the basketball tryouts? (Great, here are the directions to the

Woah! Looks like there's a lot of people here. Do you think you can score a point?

Almost there!

WOO! Good job!

OBJECTIVES:

Score 5 goals.

Lukas: Thanks for coming along with me to basketball tryouts! Tschus!

BLINDNESS- THERESA

"Hi, I am Theresa!

I am visually impaired.

I really love listening to music and today we are going to sign up for the music club.

I like helping people be more aware of accessibility issues that people like me might face.

I usually use my guiding stick

This is an area that I have been before

I go with a guide or a friend to places that I am unfamiliar with

Good job! I use my walking stick to tap against the tiles. It doesn't dig into the ground

Be careful moving forward

Can you get to the information desk

Watch out! You're going the wrong way!

FRONT DESK: Hallo, how can we help you?

A: I don't need any help (Are you sure you don't want any help) (It's okay to ask for help)

A: I want to sign up for music class. Can you tell me where it is?

Play three different instruments

It's hard to see so I use sound and the vibrations to navigate

Can you solve the puzzle

This is a fun game that uses music

I like to play music, I like the way the strings or keyboard feels on my hands. Music and sound moves through you.

Thanks for coming

DYSLEXIA- SARA

Hey my name is Sara! Nice to meet you!

I love animals and I love art*

Reading can be hard for me, it takes longer to understand the letters. I have to unscramble them*

Sometimes learning is stressful for me *

I like to relax by being creative*

I think for me a disability is just another way to live life. My brain works a little differently, and that's okay. I got diagnosed a few years*

The letters get mixed up

FRONT DESK: Hallo, how can we help you?

A: I don't need any help (Are you sure you don't want any help) (It's okay to ask for help)

A: I want to get to my art class

Can you help me find my art class?

*Used on intro video
